

Appendix 1: Post Construction Stormwater Design Examples

This appendix uses a hypothetical development site to demonstrate the design of post-construction storm water practices presented earlier in specifications.

CONTENTS

Introduction	1
Organization of this Report	1
Site Location	1
Site Topography	1
Site Soils	2
Existing Hydrologic Conditions	2
Existing Storm Water Runoff Characteristics	3
Proposed Hydrologic Conditions	3
Design Summary for Recommended Storm Water Practices	3
Exhibits 1 and 2, Site Layout and Drainage Areas	4
Section A: Dry Extended Detention Pond Design	19
Section B: Wet Extended Detention Pond Design	36
Section C: Wetland Extended Detention Pond Design	52
Section D: Bioretention Design	68
Section E: Sand Filter Design	84
