Butler Soil and Water Conservation District (SWCD), with the help of the Cincinnati Museum Center, has designed and renovated a 35 foot trailer into an impressive educational exhibit, showing soil and water. This trailer, named 'The World Beneath Your Feet' has interactive question and answer tools, as well as drawers you can pull out to see fossils and aquatic creatures. It also highlights storm drains, drainage tile, plant roots and an aquifer.

This educational trailer was made possible through grants received through the Ohio Environmental Education Fund (OEEF) and Butler Rural Electric Community Connections, with artwork done by the Cincinnati Museum Center.

Butler SWCD is proud to be able to have the opportunity to share this great project, to educate both children and adults through this educational display.

Rental information is provided in this brochure. If you have any questions, please contact our office at the number listed.
